

My adventure in Australia

On the first day, I went with my two friends in a big forest. I'm very courageous, and I'm never afraid !

And yet

I saw strange, dangerous, beautiful, and big insects. Suddenly, I stopped (my friend also stopped).
We admired the biggest spider in the world !
It was orange and red (very beautiful !) .
Slowly, my friend took his camera, and approached the spider ...
CLICK !

But suddenly

...

The big spider went towards me and climbed on my leg ! It was really horrible ! I was moving and running everywhere, so my friend laughed (It was not funny !) ! Then, the spider left me (Phew !) .

I was ridiculous ! For me, this day remains the most horrible day of my life, and for my friends, it is the funniest !
