

## My Australian holidays

With my friends, we were going to Australia during two weeks to see an Australian girl. We decided to go to the most famous forest in Australia. in the afternoon ,because it was sunny, we were walking all together, just next to a blue river in this huge forest in Australia.

We were speaking and one of my friends fell in the river when we heard a laugh. We were a little scared. But when my Australian friend had told us that was a kookaburra which was laughing, we were reassured. We looked for the animal on the high trees but we didn't find it, so we left to go to our house which was just in front of the sea. That's an unforgettable day ! We advise you to discover the mysterious kookaburra !
