

My week in  
Australia

I was in the forest in my tent . I was sleeping when a snake fell on the tent,then a second snake fell too . I was scared !

I got out of my tent but I didn't see the snake in front of me .The snake bit me .I opened my tent to call the ranger with my satellite phone and the ranger arrived some minutes later and the ranger cured me .Then the snake left because the ranger scared it .
